Article I. Name

The name of the organization is the North Dakota Cancer Coalition (NDCC).

Article II. Mission

The North Dakota Cancer Coalition is a state-wide network collaborating to reduce the incidence and mortality of cancer across the care continuum and improve the quality of life for those affected by cancer in North Dakota through prevention, education, and access to care.

Article III. Purpose

The North Dakota Cancer Coalition fosters statewide collaboration efforts to improve comprehensive cancer control and coordinates cancer prevention and control activities across North Dakota.

The Mission is driven by five key principles:

1. Success begins with a Mission-Driven **VISION**

NDCC is united by a shared vision to reduce the incidence and impact of cancer in North Dakota. All actions and decisions should reflect this mission and promote positive outcomes for individuals and communities affected by cancer.

2. The vision is based on **COLLABORATION**

NDCC believes in the power of collaboration. The Coalition is composed of organizations and individuals united through shared vision, common commitment, and coordinated activities. Our strength lies in collective efforts that foster teamwork, mutual respect, and shared responsibility to achieve meaningful impact.

3. Collaboration promotes **EFFICIENCY**

Cancer is a complex problem too large for any one entity to address efficiently. By pooling information, ideas, skills, and strategies, a united partnership is better equipped to set priorities, enhance existing coordination, streamline efforts, maximize resources, and evaluate impact.

4. Efficiency turns plans into **ACTION**

NDCC members engage in activities that promote and advocate for positive health behaviors, increase cancer screenings, expand access to quality treatment, and improve the quality of life for cancer survivors.

5. Action yields **RESULTS**

These efforts reflect our commitment to achieving measurable outcomes that reduce the burden of cancer.
